## **Travel and Trip Insurance**

Dear Valued Customer,

Mike Odin's Alaska Adventures, LLC highly recommends to its clients the purchase of travel and trip insurance to protect yourself and your valuable trip with comprehensive personal, medical, travel, and cancellation insurance.

There are many important reasons to purchase comprehensive personal, medical, travel, and cancellation insurance. Some common examples of what could go wrong are trip cancellations or delays, weather delays of commercial airlines or air charter flights, lost/delayed luggage, lost passport and/or wallet, medical treatment or evacuation from the field, family member becomes seriously ill or injured requiring you to return home, and many more. Having the appropriate insurance could possibly save you tens of thousands of dollars, should an unforeseen delay, accident, or illness happen.

Insurance of your baggage, firearms, and personal belongings are important assets when traveling to remote locations. No matter how good the planning or how precise the execution of a trip, there are many incidents of weather delays of commercial airlines and air charters as well as lost or delayed baggage every year. An insurance premium is a small price to pay for protecting your valuable property and trip.

Most travel agencies are aware of these valuable insurance policies. Please inquire with your local travel agencies or one of the companies that specialize in travel and trip insurance.

Thank you for allowing us to serve you.

Yours truly,

Mike Odin
